MORGAN CHEERFULLY ADMITS THAT HE DOMINATES ABOUT ALL HE IS CONNECTED WITH

Plays With Billion Dollar Trust

(By Federal Wireless Telegraph.)
WASHINGTON, December 19.—(Special to The Advertiser)—With an un-concern that was amusing at times, J. Pierpont Morgan, in his examination by the house money trust committee today, admitted that he dominated everything that he was connected with as a financier.

Morgan testified that the deposits in

stock he personally owned in the National City Bank and the National Bank of Commerce. The financier said:

"Oh, I don't know; a million or so."

PRESIDENT URGES BIG APPROPRIATION

Government Building at Panama Exposition Will Cost Two Millions.

(By Federal Wireless Telegraph.)
WASHINGTON, December 19.—(Special to The Advertiser)—In his message to congress today, President Taft urged an adequate appropriation for a government building at the Panama-Pacific Exposition.

He was unable to give a list of all the corporations for which his firm acts as financial agent.

Morgan also blandly admitted that what he says in Steel Trust affairs goes. He testified that the total deposits in his banks November 1, were about \$10,000,000, and that he was director in some of the firms depositing with Morgan and Company.

His concern, he said, had fiscal agent contracts only with the New York Central and the New York, New Haven and Hartford Railway and their allied lines.

Morgan and Company, he said, has the exclusive right of marketing the securities of these two roads.

Controlling Contracts.

Morgan read both the fiscal contracts his firm had with the New York Central and the New York, New Haven and Hartford Railways. These showed that Morgan and Company control one and a half per cent of the stock. Morgan denied it to be feasible for corporation securities to be sold in open competition with the federal and municipal bonds, to get a high price.

The financier admitted he approved the entire board of directors of the Steel Corporation when it was organized. He would not admit, however, that he actually named the board, adding: "I will say this, however, who ever went on the board went on with my approval."

"Did you say who would stay on the board and who would stay off?" asked Attorney Untermyer, for the committee.

"I probably did later," answered Morgan. "The board is not named by me now; but nobody will name agents against my protest."

Named Its Chairman.

Morgan admitted he named Judge Gary, chairman of the Steel Corporation executive committee, and that he fixed the prices paid for the companies forming the corporation at the time of reorganization.

"Who decided that Morgan and Company should be the agents for the Steel Corporation securities?" asked Untermyer.

"I didn't," answered Morgan.

Referring again to the Steel Trust Morgan said the organization of the corporation was accomplished without written contract. Just merely by correspondence. Morgan and Company, he said, dominated the entire organization once.

Untermyer asked Morgan how much

GOVERNOR FREAR SENDS PRESIDENT NAMES OF JUDGES

(By Federal Wireless Telegraph.)
WASHINGTON, December 19.—President Taft today sent to the nomination of Justice H. Kingsbury as judge of the circuit court of Mass.

An announcement made earlier day that President Taft had sent the name of Justice Kingsbury to the Senate for confirmation on the recommendation of Secretary of State, told like a blank placard on the number of the bar association of Boston, who had received Judge Edgington for the position of a meeting the first of this year.

Governor Frear sent the name of Kingsbury to President Taft, and it is said the name of Justice Kingsbury to the Senate for confirmation on the recommendation of Secretary of State, told like a blank placard on the number of the bar association of Boston, who had received Judge Edgington for the position of a meeting the first of this year.

During the operation speakers were Frank Hayes, V. Hayes, vice speaker of the lower house in the Imperial district, and Matthew, whose name he said in his speech was not mentioned, something has been done before the bar association took action to endorse him.

It appears that Hayes' proposal that the bar association had endorsed the man in question at one time, there was no necessity in asking them for a second endorsement.
